Attention: Mr D Opperman

Dear Sir

NOTIFICATION OF START OF THE PRE-APPLICATION PUBLIC PARTICIPATION PERIOD FOR THE PROPOSED 160MM uPVC BULK WATER CONVEYANCE PIPELINE FROM TESSELAARSDAL TO BETHOESKLOOF IN THE WESTERN CAPE

1. Your letter 20640 dated 26 June 2020 refers.
2. Cognisance is taken of the Basic Assessment Report dated November 2019.
3. According to drawing number: 2001551/W/101 there are four distinct sections to the proposal that affect Minor Road 4103:
 - 3.1 From km1.05LHS to km1.6LHS, pipe in the road reserve 2m from the boundary;
 - 3.2 From km1.6LHS to km1.90LHS, pipe is 2m from the road reserve boundary in the 5m building line;
 - 3.3 From km1.90LHS to km2.34 LHS, pipe is in the road reserve 2m from the boundary;
 - 3.4 From km2.34 LHS to km3.52 LHS, pipe is on the edge of the road.
4. A site visit showed that parts of the proposed route are in a very deep side drain and the road is also narrow along certain sections which may affect the proposed pipeline route particularly when the Minor Road is maintained.

5. Accordingly, more information such as cross-sections and long sections which show the pipeline and its related items such as scour valves, air valves and thrust blocks are required.
6. Upon receipt of the additional information, this Branch will be able to comment in detail on the proposal.

Yours faithfully

SW CARSTENS
For **CHIEF DIRECTOR: ROAD NETWORK MANAGEMENT**
