**COMMENTS ON THE DRAFT BASIC ASSESSMENT REPORT: PROPOSED REZONING, SUBDIVISION & DEVELOPMENT ON FARM CUMBERLAND NO. 915, SIMONDIUM, WESTERN CAPE.**

1. The above-mentioned document, dated 19 June 2019, as received by the Department of Environmental Affairs and Development Planning Directorate: Waste Management (the 'Department') on 19 June 2019, refers.
2. The Department has reviewed the documentation and has the following comments:
  - 2.1. All green waste generated during the site clearing phase must be taken to an **approved municipal or private green waste facility**. The Department has initiated a 50% ban of organic waste from landfill by 2022 and a complete ban of organics to landfill by 2027. It is therefore advised that organics be separated from the general waste stream and beneficiated where possible. Alternative treatment technologies for beneficiating this waste type must be considered.
  - 2.2. Construction and demolition waste (builder's rubble) must be properly managed and reused where possible. The applicant can source a copy of the guideline on the management of C&D waste from the Directorate: Waste Management at DEA&DP. The contact person is Dean Gilbert Tel: 021 483 8336.

- 2.3. General waste produced during all phases of the development must be separated for recycling before being removed for waste disposal to landfill.
  - 2.4. Awareness is of utmost importance in minimising waste. Therefore, awareness and training must be implemented to all staff, contractors and visitors.
  - 2.5. It is acknowledged that the EMPr includes a Waste Minimisation Plan and we are satisfied with the proposed waste minimisation interventions. It is suggested that any illegal dumping of waste is kept record of either manually or electronically to be produced on request as stated in the EMP.
3. The Department reserves the right to revise initial comments and request further information based on the information received.

Yours faithfully

**BELINDA LANGENHOVEN**  
**DEPUTY DIRECTOR: WASTE POLICY AND MINIMISATION**
