Good Morning Heloise

As we all aware of the lockdown which enforced our offices to close thereby, forcing us to work remotely in different set ups though.

For the lockdown period, this email will serve as formal comments.

In trying to determine some of the Section 21 water uses of the National Water Act (NWA), 1998 (Act No 36 of 1998) that could be triggered by the proposed activity, the following questions arose:

- a) What would be the source of water for the additional 20 000 m³ capacity Reservoir. Authorisation for the supply must be provided.
- b) How would the nearby wetland as advocated by the Botanical Report (Photo 5 on p10) be protected from the impacts of the proposed construction of a new 20 000 m³ capacity Reservoir.
- c) What is the route of the pipeline in relation to the nearby wetland.

The response to the above should also form part of the BAR.

PLEASE NOTE: Any activity that takes place within a Regulated Area of a Watercourse triggers Section 21 (c) & (i) water uses of NWA and needs to be authorised.

I have attached the General Authorisation for Section 21 (c) & (i) water uses of NWA for ease of reference on Regulated Area of a Watercourse (p4).

I hope you will find the above in order.

Kind Regards

Hi Jaco,
Dit gaan heel goed hier – so tussen ma, huisvrou, onderwyser en BGCMA werk deur!

Het julle die BAR ingehandig by ons? Heloise, ek het net die onderstaande ene op ons stelsel as ontvang:

4/10/1/H20H/HEX RIVER EMBANKMENT, WORCESTER

16/3/3/6/7/1/B1/17/1019/20

Indien julle nog nie die BAR ingestuur het nie, stuur asb. vir my 'n link na waar ek dit elektronies kan aflaai sodat ek Mashudu of Siya kan vra om daarop te werk en vir julle kommentaar te stuur asb.
