Dear Christoff,

Thank you for your mail. I can confirm, based on our phone conversation and on the contents of the mail below, that the previous comments as submitted by CapeNature will still apply. There are no substantive changes to the application and the botanical and freshwater specialists have confirmed as such.

Kind regards,  
Philippa Huntly.

**Importance:** High

Thank you for your kind assistance, highly appreciated.

With reference to our conversation.

This application for the light industrial development has been previously approved.

The 1<sup>st</sup> PP ended the 13<sup>th</sup> of December 2019.

Very straight forward as previously approved.

We asked the specialist to re-assess and include a confirmation letter that the previous assessment and findings is still valid.

No issues from a botanical point of view seeing that the site is severely disturbed and degraded due to agricultural practices.

No issues from a freshwater point of view as the Mosselbank river falls way outside the construction footprint.

Please let me know if you would like me to email you a copy of the basic assessment report.

We await comment from your department.

Have a great day!

Kind Regards,

Christoff Dippenaar

Good morning Chanel

Hope you are doing well.

We urgently need feedback from you on when you will be able to provide us with the comments.
