

**FARM 222 PORTION 15**

**TABLE 1 TREE SURVEY INFORMATION**

TREE NO.	TREE TYPE (& stem diameter)	COMMON NAME	TREE HEIGHT (m)	CROWN WIDTH (m)	CONDITION	COMMENT / DESCRIPTION	RECOMMENDATION / REASON FOR REMOVAL
1	Pinus pinaster (30cm)	Cluster pine	5m	2,5m	Poor	Dead tree	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
2	Acacia saligna (15cm)	Port jackson	3m	3m	Poor	Young	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
3	Pinus pinaster (30cm)	Cluster pine	5m	2,5m	Poor	Dead tree	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
4	Pinus pinaster (30cm)	Cluster pine	5m	2,5m	Poor	Dead tree	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
5	Melia azedarach (40cm)	China berry	6m	4m	Poor	Has been cut down	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
6	Unidentified evergreen tree		4,8m	2m			Little ornamental value, to be removed in building footprint.
7	Unidentified evergreen tree		5m	2m			Little ornamental value, to be removed in building footprint.
8	Unidentified evergreen tree		4,8m	2m			Little ornamental value, to be removed in building footprint.
9	Melia azedarach (40cm)	China berry	6m	3m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
10	Hyphaene coriacea (40cm)	Lala palm	10m	2m	Good		Can be retained if not in building footprint.
11	Populus nigra 'Italica' (20cm)	Lombardy poplar	9m	1,5m	Good		Can be retained. Is an invasive specie must be regulated, not allowed to spread.
12	Populus nigra 'Italica' (20cm)	Lombardy poplar	8m	1m	Good		Can be retained. Is an invasive specie must be regulated, not allowed to spread.

**FARM 222 PORTION 15**

13	Populus nigra 'Italica' (20cm)	Lombardy poplar	6,5m	2m	Good		Can be retained. Is an invasive specie must be regulated, not allowed to spread.
14	Schinus terebinthifolius	Brazilian holly					Invasive specie NEMBA category 3. Has some ornamental value can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
15	Schinus terebinthifolius (50cm)	Brazilian holly	5m	7m	Good	Some parts have been cut	Invasive specie NEMBA category 3. Has some ornamental value can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
16	Grevillea robusta (50cm)	Australian silky oak	16m	5m	Good		Invasive specie NEMBA category 3. Has some ornamental value can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
17	Melia azedarach (35cm)	China berry	7m	6m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
18	Melia azedarach (35cm)	China berry	7m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
19	Melia azedarach (35cm)	China berry	6m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
20	Phoenix dactylifera (30cm)	Date palm	5m	5m	Good		Recommend to be removed in building footprint
21	Schinus molle (40cm)	Peppertree	5m	5m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
22	Phoenix dactylifera (40cm)	Date palm	4m	5m	Good		Recommend to be removed in building footprint
23	Quercus robur (50cm)	English oak	10m	4m	Good condition		Has ornamental value can be retained if it does not fall in building footprint.
24	Pinus pinea (60cm)	Umbrella pine	7m	10m	Mediocre	Distinct tree, scew	Falls in building footprint because of irregular shape can be removed.
25	Melia azedarach (40cm)	China berry	5m	6m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
26	Melia azedarach (40cm)	China berry	5m	4m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed

**FARM 222 PORTION 15**

27	Melia azedarach (50cm)	China berry	6m	7m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
28	Melia azedarach (50cm)	China berry	5m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
29	Melia azedarach (aprox. 50cm)	China berry	4m	4m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
30	Melia azedarach (aprox. 50cm)	China berry	4m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
31	Melia azedarach (aprox. 50cm)	China berry	3m	4m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
32	Melia azedarach (aprox. 50cm)	China berry	4m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
33	Melia azedarach (aprox. 50cm)	China berry	4m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
34	Pinus pinaster (45cm)	Cluster pine	5m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
35	Unidentified deciduous tree. Unaffected by development						To be removed
36	Unidentified deciduous tree. Unaffected by development						To be removed
37	Unidentified deciduous tree. Unaffected by development						To be removed
38	Unidentified deciduous tree. Unaffected by development						To be removed
39	Pinus pinaster (60cm)	Cluster pine	6m	5m	Good	Lopsided in form	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
40	Stump						No ornamental value. To be removed

**FARM 222 PORTION 15**

41	Stump						No ornamental value. To be removed
42	Stump						No ornamental value. To be removed
43	Melia azedarach (50cm)	China berry	10m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
44	Melia azedarach (50cm)	China berry	6m	6m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
45	Eucalyptus globulus (60-70cm)	Blue gum	8m	5m	Good	Large shrubby tree	Invasive specie. Has little ornamental value, can be removed or retained.
46	Melia azedarach (40cm)	China berry	6m	8m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
47	Melia azedarach (35cm)	China berry	6m	8m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
48	Melia azedarach (20cm)	China berry	4m	4m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
49	Schinus molle (40cm)	Peppertree	4m	6m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
50	Schinus molle (40cm)	Peppertree	6m	8m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
51	Schinus molle (40cm)	Peppertree	5m	4,5m	Good	Branches spreading and very low	Has some ornamental value. Can be retained if it does not fall in building footprint.
52	Schinus molle (aprox. 30cm)	Peppertree	6m	3m	Young		Has some ornamental value. Can be retained if it does not fall in building footprint.
53	Schinus molle (aprox. 30cm)	Peppertree	5m	6m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
54	Grevillea robusta (40cm)	Australian silky oak	8m	5m	Good		Invasive specie NEMBA category 3. Has some ornamental value can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.

**FARM 222 PORTION 15**

55	Pinus pinea (40cm)	Umbrella pine	20m	15m	Good		Invasive specie. Little ornamental value, can be removed, falls in building footprint.
56	Grevillea robusta (40cm)	Australian silky oak	10m	3m	Good		Invasive specie NEMBA category 3. Has ornamental value in groups can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
57	Grevillea robusta (30cm)	Australian silky oak	12m	7m	Good		Invasive specie NEMBA category 3. Has ornamental value in groups can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
58	Grevillea robusta (40cm)	Australian silky oak	11m	5m	Good		Invasive specie NEMBA category 3. Has ornamental value in groups can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
59	Grevillea robusta (60cm)	Australian silky oak	10m	3m	Good		Invasive specie NEMBA category 3. Has ornamental value in groups can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
60	Grevillea robusta (50cm)	Australian silky oak	9m	3m	Good		Invasive specie NEMBA category 3. Has ornamental value in groups can be retained if it does not fall in building footprint. This tree must be contained and cannot be propagated.
61	Jacaranda mimosifolia (20cm)	Jacaranda	5m	4m	Young		Could be transplanted to other areas in the development.
62	Jacaranda mimosifolia (20cm)	Jacaranda	5m	4m	Young		Could be transplanted to other areas in the development.
63	Schinus molle (60cm)	Peppertree	5m	4m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
64	Schinus molle (50cm)	Peppertree	8m	8m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
65	Myoporum laetum (25cm)	Mousehole tree	5m	5m	Good	Large shrubby tree	Is intertwined with other Schinus molle trees. Suggest to be removed to improve ornamental value of other trees.
66	Schinus molle (50cm)	Peppertree	5m	5m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
67	Schinus molle (40cm)	Peppertree	10m	8m	Good		Has some ornamental value. Can be retained if it does not fall in building footprint.
68	Acacia saligna (50cm)	Port jackson	5m	6m	Good		Invasive specie NEMBA category 2. Can remain only if permit is acquired which is granted under very few circumstances. Suggest to be removed.

**FARM 222 PORTION 15**

69	Acacia saligna (30cm)	Port jackson	5m	5m	Good		Invasive specie NEMBA category 2. Can remain only if permit is acquired which is granted under very few circumstances. Suggest to be removed.
70	Erythrina lysistemon (35cm)	Coraltree	5m	5m	Medium	Has leaf galls	Has some ornamental value. Can be retained if it does not fall in building footprint.
71	Acacia saligna (40cm)	Port jackson	4m	4m	Good		Invasive specie NEMBA category 2. Can remain only if permit is acquired which is granted under very few circumstances. Suggest to be removed.
72	Acacia saligna (40cm)	Port jackson	4m	4m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
73	Melia azedarach (50cm)	China berry	6m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
74	Acacia saligna (40cm)	Port jackson	5m	4m	Good		Invasive specie NEMBA category 2. Can remain only if permit is acquired which is granted under very few circumstances. Suggest to be removed.
73	Melia azedarach (50cm)	China berry	6m	5m	Good		Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
76	Eucalyptus globulus	Blue gum	7m	4m	Good		Invasive specie. Has little ornamental value, can be removed or retained.
77	Pinus pinaster (40cm)	Cluster pine	30m	6m	Good	Not as full, some branches missing	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
78	Eucalyptus globulus (40cm)	Blue gum	8m	5m	Good	Large shrubby tree	Is an invasive specie. Has little ornamental value, can be removed or retained.
79	Stump						No ornamental value. To be removed.
80	Stump						No ornamental value. To be removed.
81	Pinus pinaster (60cm)	Cluster pine	15m	4m	Medium	Not as full, some branches missing	Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
82	Stump						No ornamental value. To be removed.

**FARM 222 PORTION 15**

83	Stump						No ornamental value. To be removed.
84	Stump						No ornamental value. To be removed.
85	Pinus pinaster (80cm)	Cluster pine	15m	4m			Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
86	Pinus pinaster (80cm)	Cluster pine	15m	4m			Invasive specie NEMBA category 1b. Cannot be moved and should be contained in area if wanted and requires a permit to own. Recommend to be removed and destroyed
