**Comments (You are welcome to attach more sheets if necessary (Your comments will be considered in the EIA (BA) process))**

I have had a long standing issue with Western Cape Department of Public Works, specifically the road engineers. The speed limit of 80km/h is too HIGH and it is NOT obeyed. The impact has been numerous fatalities, I would like the EIA or the relevant report to recommend extra strong traffic calming measures at the entrances to the residential estates along the proposed widened route. I have proof of SIX years of correspondence!!!!
